Company Profile

History, Chronicle

1987

YLM was founded in 1987

1995

In 1995, YLM's CNC PC Based tube bender was the first advantaged control system developed in Asia

2000

YLM is one of the leaders in supply of advanced solutions for companies in metal tube forming industries (USA TENNECO)

2017

IPO in 2017

2018

Blooming up the market of laser cutting machine & 6 axes articulated robot

2020

Blooming up the market of laser technology

Future Prospects

Future Prospects

“ Artificial Intelligence ” and “ Information Management ” Software series

AI bender replaces people to set up parameters and self-diagnose abnormalities. Also, it provides the best bending path.

Laser Processing series

The six-axis robotic arm with an external servo rotating platform achieves energy saving and environment protection to meet high efficiency.

“Work Cell Network” Plan

Entertaining the era of 5G network communication, using wireless communication technology to connect multiple single working stations to achieve working simultaneously at the whole area, this what we called Unmanned Work Cell condition.
